

Real results with EcoStruxure: transforming small and mid-size restaurants

Accelerating decarbonization, cost savings, and occupant comfort

Restaurant chain: optimized operations and improved comfort

A leading quick-service restaurant with drive-through outlets specializing in chicken meals faced challenges such as high electricity bills, power quality issues, comfort concerns, and lack of visibility into energy usage across its locations. The brand needed a solution to manage temperature compliance for cold rooms and refrigeration equipment, ensure electrical health, and improve operational efficiency.

200+

Locations
and growing

EcoStruxure™ Building Activate

Real-time monitoring of energy use and equipment loads across all restaurant locations

Automated controls for AC units, chillers, and cold rooms to maximize energy savings

Centralized dashboards for quick deployments, proactive maintenance, and enhanced comfort

Tangible outcomes

7% Energy savings across the portfolio

Centralized monitoring across 200+ sites

Increased visibility on energy monitoring, electrical health, energy consumption patterns across time-of-day, and comfort monitoring across sites

EcoStruxure™ Building Activate: enhancing performance for small and mid-size restaurants

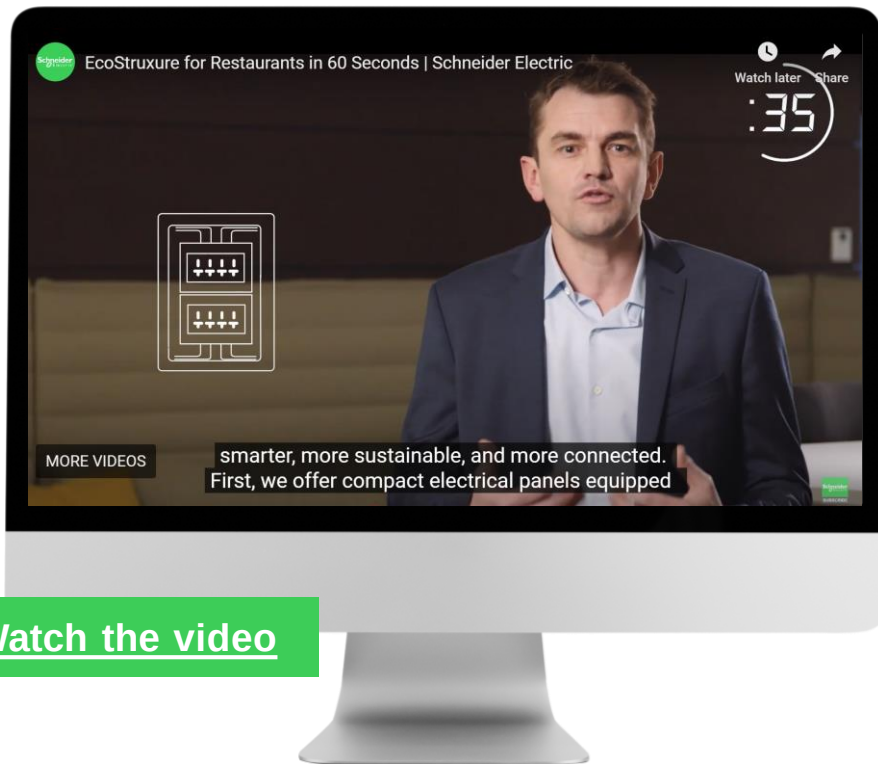

Restaurants are facing rising energy costs, equipment failures, and inconsistent customer experiences across multiple sites.

EcoStruxure™ Building Activate delivers an all-in-one, AI-powered, scalable solution designed for fast-paced environments.

From smart energy management to predictive maintenance and centralized monitoring, EcoStruxure empowers you to cut costs, boost speed of service, and ensure brand consistency with payback in under two years.

EcoStruxure for Restaurants in 60 Seconds

A global leader in energy management and innovation

Benefits of partnering with Schneider Electric™

- **Decarbonization leadership expertise in the building sector**
Sustainability leader serving over 1 million buildings globally
- **Innovation with EcoStruxure software**
30 years' experience developing software solutions for buildings
- **Open and vendor agnostic solutions**
Seamlessly integrates with diverse building systems and technologies
- **Network of partners**
Operates with an extensive global network of over 1 million partners across more than 100 countries
- **Cybersecurity leadership**
Commitment to strongly upholding the fundamental rights to privacy and data protection in compliance with privacy regulations (like ISO 27001:2022, ISO 27701:2019)
